THE "BILLS" MAY ORGANIZE

Preparations Being Made Looking Toward
the Institution of a Lodge of the
B. P. O. E. in Daytona.

Local Elks, to the number of about twenty, are very anxious to secure a lodge in Daytona.

To that end Dr. Gainer Worley, of St. Augustine, District Deputy Grand Exalted Ruler, has been invited to come to Daytona, as the guest of the local "Best People on Earth", and carefully go over the field.

Daytona could easily support a lodge of the kind and many of the leading citizens of the city have signified their willingness to become charter members.

The order of Elks was organized in New York City in 1865.

Chas. Algernon Sidney Vivian, recently arrived from "Merrie England," was the real starter of a fraternity which has attained great and surprising proportions and which is certainly unique among the societies of the world.

Mr. Vivian was the son of a clergyman. He was a professional singer—a "ballad singer," as he styled himself. He did not partake of parental austerity, but on the contrary, possesses all the characteristics of the peripatetic man of the stage. He was a versatile man, musically and otherwise. He was of a cheery and sunny nature.

To while away the long winter evenings Vivian and a number of congenial spirits who were guests at a respectable but not specially pretentious boarding house, organized the "Jolly Corks." The idea proved popular, even if the name given the organization was neither poetic nor enduring.

In looking around for a suitable name

a committee, happening to meet at "Barnum's Old Museum," were favorably struck by the appearance of a fine elk's head, which occupied a conspicuous place in the museum. In looking up the history of the elk the committee became deeply impressed by a description of the animal in Goldsmith's "Animated Nature" and Buffon's "Natural History." The elk was described as fleet of foot and timorous of doing wrong, avoiding all combats, except in fighting for the female and in defense of the young and helpless and weak.

The fame of the good work performed by the them numerically small unimportant order spread and lodges were soon established in a number of the larger cities of the East.

In 1874 there were but two lodges with a combined membership of less than 200.

In 1882 there were fourteen lodges, with a combined membership of 1,800. Ten years later (1892) there were 222 lodges, with members numbering 18,241 members. The growth of the order thereafter was very rapid and very substantial as well.

Today there are over 1,000 lodges with a membership running into hundreds of thousands.

Vivian, the founder of the order, died at Leadville, Colo., in 1880. Nine years later the remains were taken from a practically unmarked and uncared for grave and buried in the beautiful Elks' Rest of Boston Lodge in Mt. Hope Cemetery.

Ostrich Farm a Desirable Attraction.
Eleven ostriches arrived in St. Augustine a few days ago consigned to Wm. M. Ford, who will open a farm of this kind there.

Daytona no doubt would prove a desirable place for the wintering of these birds and it is hoped that in the future arrangements can be perfected whereby Daytona or its suburbs will have an attraction of this nature. An ostrich farm would mean much for this place.

A negro by the name of Jones was arrested Thursday in Midway on information received by the authorities from St. Petersburg, to the effect that he had deserted his wife. A deputy sheriff from that county arrived here yesterday and carried him back to answer to the charge.

Off to New Field.
Everett M. Canova left on the forenoon train for Daytona where he will this winter hold the responsible position of city editor of the Daily News. He is an all round hustling newspaper man and has considerable experience in his chosen field. He is an enthusiastic worker and will prove a valuable acquisition to the News—St. Augustine Record.

Dr. and Mrs. Henry Mitchell arrived from Philadelphia on Wednesday evening and are again located in their cottage at Daytona Beach.

MUST COMPANY K DISBAND?

The Local Military Company Must Vacate Armory Unless Satisfactory Arrangements are Made.

From present indications Daytona may soon be without a company of militia. It seems that a satisfactory arrangement for the use of the armory cannot be made between the County Commissioners and the State Military authorities. At last month's meeting of the County Commissioners their attorneys were authorized to commence ejectment proceedings against the company. This, however, was unnecessary as Captain C. L. Smith has turned the keys to the armory over to Commissioner Rodgers of this district.

At the meeting of the commissioners to be held next Monday, several officers of the State Troops will appear, before the body and endeavor to adjust the matter.

Lieutenant Colonel C. M. Bingham, the commander of Daytona Post, in a conversation with a representative of this paper yesterday said:

"Owing to a long continued controversy between the State Military authorities and County Commissioners, the military company at Daytona is liable to be obliged to give up entirely. It seems that there is no place to be procured suitable for military purposes outside of the Armory. This was built for military purposes and has gotten to be the home for everything of a military nature. It has been used for public meetings of all kinds and descriptions. The church and other organizations find it the handiest and best place for fairs and suppers. It would seem hard indeed to give it up. If it has to be given up it will mean the abandonment of all things military and the place will be used for perhaps a planing mill, novelty shop, or automobile garage. Is there any possible chance to get together a sum sufficient to buy the Armory and if so would it not be possible to organize a company and rent to the State and thus pay interest on the money invested? Can not some friend of the Armory find ways and means to prevent losing it?"

The addition to the residence of W. G. Weaver corner Second avenue and Ridgewood is nearing completion. Carpenters are still at work though painters are brightening up the exterior of the house and the surrounding fences.

Several of the planks surrounding the express office at the station are in poor condition. Yesterday the express people had a good load on their truck when coming from the afternoon train, one of the boards gave way, causing a crash that somewhat startled those in the vicinity for a time.

T. T. Welch, route agent for the Southern Express Company, was in Daytona yesterday on business.

Death of Mrs. R. S. Lewis.

Mrs. Rozena S. Lewis, aged 76 years, died Wednesday evening at the home of Mrs. Emma Bebee on South Ridgewood, from Bright's disease. The deceased was among the early visitors to Daytona coming here many years ago but within the past two or three years she remained in the north. Mrs. Lewis was the widow of the late D. L. Lewis.

The funeral services took place at one o'clock this afternoon from the residence of Mrs. Bebee, Rev. C. M. Bingham officiating. The remains were shipped at 3 o'clock to Oak Park, Illinois, for interment.

Among the Jacksonville traveling salesmen arriving here Wednesday night were Geo. B. Ashcraft and C. D. Trowell.

STILL IN A CRITICAL CONDITION

Tedious Operation Will be Performed in the Event There is No Improvement.

An operation on little Herbert Mills will very likely be performed in the event that the patient does not improve within the next two days. At present his condition is considered critical but the boy is perfectly rational now and Dr. Atwood is of the opinion that there is a slight improvement over yesterday.

The blow of the shaft which it is thought knocked him to the ground was a violent one and the indentation in the lad's skull is several inches in length and nearly as deep. The blow, it is feared, will affect the brain and for this reason, it is quite probable that the operation will be performed. If the condition of the boy does not permit him being carried to the Railway Hospital at St. Augustine, Dr. S. G. Worley, the chief surgeon, who has a wide reputation, will come here to perform the tedious work.

The physician in attendance advises not to disturb the patient and for this reason the parents have not even spoken to their son.

Caused by a severe cut in the skull, the eyes are turned almost in opposite directions and this they say is a sign that the brain is affected. The cut on the nose and mouth is a very ugly one and will mean disfigurement for some time to come if he recovers.

Phillip Spencer, the colored driver of the team that caused the accident, evinces much interest in the boy's condition and has made numerous inquiries. He says that he was not at all to blame, that he did not see him until he was directly in front of the horses and when he attempted to check them, they made a jump.

Many car loads of supplies for the Florida East Coast Railway extension are passing through Daytona daily. A large amount of the shipments consist of cement which will be used in laying the foundation of the road.

The automobile garage of C. G. Burgoyne is being considerably enlarged, when finished it will be able to accommodate several machines.

W. G. Williamson, who has been the local express agent here for some time, will continue to remain in Daytona and assist Mr. Neel, the new agent.

S. W. Duncan, an enterprising colored man, who arrived from St. Augustine some two months ago to locate in this city, reports a good business at his stand in Midway. He recently completed a two story grocery store and residence combined.

JOINT MEETING OF TWO BODIES

Waterworks and Sewerage System to Be
Taken Up—Bids for Improvements
Are Too High.

The city solons met last evening in special session to discuss the question of contemplated improvements.

There was nothing decided upon, relative to bonding the town for waterworks and sewerage, but the city clerk was authorized to write to Kitchen & Lewis of Chicago, who are anxious to install these much needed improvements in this city, and have their representative at some time in the near future come here and appear before a joint meeting of the City Council and Board of Trade, at which time every property holder and citizen will be invited to attend, and discuss the matter. Members of the council, several of whom are in doubt as to the practicability of the system, want to have every technical part explained, so there will be not the least hitch in its working in the event the system is installed. At this meeting, to be held some time within a week or ten days, the amount in which the town will bond

will be decided on. Both the waterworks plant and sewerage system, it is estimated will cost about \$115,000.

The question of draining Midway was also discussed and three bids were received, two of which were from local parties and one from a Jacksonville firm. All three exceeded the estimate of City Engineer D. D. Rogers and the decision of the council was to refer the matter back the city engineer and have him go over the figures again and to see which would be the best to accept and report his findings at the next meeting.

Too high was the slogan of the council when the bid of J. P. Browning came around for the work of building the many sidewalks which the city proposes. The council thought that a much lower figure could be made. This matter was also referred to the city engineer.

The next regular meeting of the council will be held Monday evening, Dec. 11.

A Poem for Today

DARBY AND JOAN

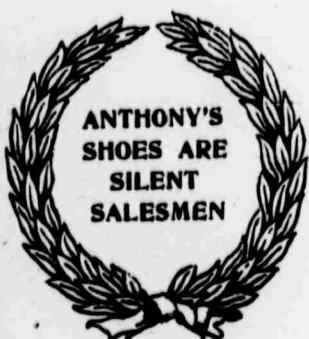

By Frederick Edward Weatherly

ALBY, dear, we are old and gray;
Fifty years since our wedding day,
Shadow and sun for every one
As the years roll on.
Darby, dear, when the world went wry
Hard and sorrowful then was I.
Ah, lad, how you cheered me then—
Things will be better, sweet wife, again—
And always the same, Darby, my own;
Always the same to your old wife, Joan.

Darby, dear, but my heart was wild
When we buried our baby child,
Until you whispered, "Heaven knows best!"
And my heart found rest.
Darby, dear, 'twas your moving hand
Showed me the way to the better land.
Ah, lad, as you kissed each tear,
Life grew better and heaven more near.
Always the same, Darby, my own;
Always the same to your old wife, Joan.

Hand in hand when our life was May,
Hand in hand when our hair is gray,
Shadow and sun for every one
As the years roll on.
Hand in hand when the long night-tide
Gently covers us side by side—
Ah, lad, we know not when
Love will be with us forever then!
Always the same, Darby, my own;
Always the same to your old wife, Joan

Monkeys at Play.
"Nothing is more instructive," said the zoo keeper to a Baltimore Herald reporter, "than to watch young monkeys at play. These interesting creatures investigate everything with insatiable curiosity. They do things startling enough to convince me that they have almost human minds."
"I had in India a young monkey that learned to put the key in the lock and unlock the chain that fastened it to a pole. Near this monkey there always lay a brush with a handle that unscrewed. In time the monkey learned to unscrew the handle and then to screw it in again."
"A friend of mine had a monkey that he kept chained just out of reach of the hearth fire. This monkey learned to tear strips from newspapers, roll them into long tapers and light them in the flames."

A Colossal Idol.
Two miles from Kamekura and about twenty from Yokohama in Japan, on a terrace near the temple sits the most gigantic idol in the world. It is the bronze image of a deity and dates from the reign of the Emperor Shomu, who died A. D. 748. The dimensions of this idol are colossal. His height from the base of the lotus flower upon which he sits to the top of his head is sixty-three and a half feet. The face is sixteen feet in length and nine and a half feet wide; the eyes are three feet nine inches from corner to corner, the eyebrows five and a half feet and the ears eight and a half feet. The chest is twenty feet in depth, and the middle finger is exactly five feet long. The fifty-six leaves of the lotus throne are each ten feet long and six feet wide.

Burning of the Vanities.
Savonarola once marked his strong condemnation of luxury by collecting a large number of articles which he regarded as vanities during the carnival to be burnt in the Piazza della Signoria, Florence, on Shrove Tuesday, 1497. In this "burning of the vanities" were included fancy costumes, carnival masks, false hair and rouge pots, cards and dice boxes, books and pictures, together with casts and valuable sculptures of questionable character. Built up into a pyramid of seven stages signifying the seven deadly sins the pile was burnt by lighting tapers placed in the center, while children standing round sang hymns before the assembled crowds.

From the time the curtain rises in the
first act, until the final last act, there
are just 150 moments; in that 150 mo-
ments there are 300 laughs. See "A
Breezy Time." You will laugh. At
Opera House, Saturday, Dec. 9.

Dr. and Mrs. Ralph Smith and their
little son, of Jacksonville, spent a few
days in Daytona recently. From here
they went to Tampa to take in the fes-
tivities of the State Fair. While here

The Austin opened Thursday for the
season of 1905-6 under very favorable
auspices. During the past summer a
number of improvements have been made
to this already popular hostelry and this
year the proprietor will be able to ac-
commodate more people than last season.
The work done on the hotel during
the summer was the building of a twenty
bed room addition. The dining room
was also enlarged. W. W. Austin is the
proprietor and manager and he has in
E. J. Holt an able assistant.

The Putnam, which will in the future
be known as the Putnam Inn, opens for
the season at DeLand Tuesday, under
the management of V. W. Gould. He
has been identified with the hotel for a
number of years and he is well able to
carry on the business in a successful
manner. In the office will be Captain
Charles Church and J. Turner Harris.

...Wanted...

1,000 Reporters!

The Daily News wants 1,000 reporters. No, this is not
a joke. We really want them, and we won't be happy until
we get them.

In other words The Daily News wants every person,
male and female, 18 years of age and over, in Daytona and
its environs, to get on the staff of the paper. The Daily News
wants every scrap of local news that is worth printing to ap-
pear in its columns. The best way to get it is to ask the
people who know about the news to send it to the paper.

So if you know of anything that has happened, or is
about to happen, tell the City Editor about it or write to him.

Let every man and woman, youth and maid in and
around Daytona become a reporter The Daily News.

DAYTONA is situated upon the west bank of the Halifax River at its mouth, and midway between its source at Babcock Bay and its outlet at Mosquito Inlet. It is in latitude 27° 20' north and one mile from the Atlantic ocean, and is acknowledged to be without a rival for beauty among the cities of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of palmetto, cypress, and other tropical trees. The town of today, with its beautiful cottages and well-kept streets and avenues, is the result of that all along the wide avenues that intersect the town are lovely live oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overhangs the street and adds to the tropical beauty of the scene. The town is a most beautiful one, with its many fine homes and its many fine hotels, and its many fine streets and avenues.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. The river is the delight of the anchor at the yachtman and forms one of the town's greatest attractions. The main avenue that runs parallel with the river is about 100 feet wide, except Beach street which is about sixty feet, but has a half mile of open, beautiful water abutting upon its eastern side, where the salt waves dash and flow and above and across which comes the cooling, invigorating and health-giving breeze from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadamized and shell roads and streets, rendering it the

Wheelman's Paradise
 and added to these, but a mile away are thirty miles of smooth, hard beach that affords an unrivalled course for long distance cycling and driving of automobiles. No town of equal size, South or North, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages
 that have been erected during the past years and are being built are rendering Daytona its fame for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those seeking homes in the South and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelties, works, an opera house, electric light for street and house illumination, a good telephone system, ice factory, City Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply
 which is derived from numerous flowing wells of which there are probably 200 in the corporate limits. The flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and the depth secures purity from all surface contamination. The water is slightly impregnated with mineral iron and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona
 proper is about 1,500. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze, etc.

Goodall, Seabreeze and Silver Beach which are property a part of the town and population.

Daytona Beach
 is one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Southern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

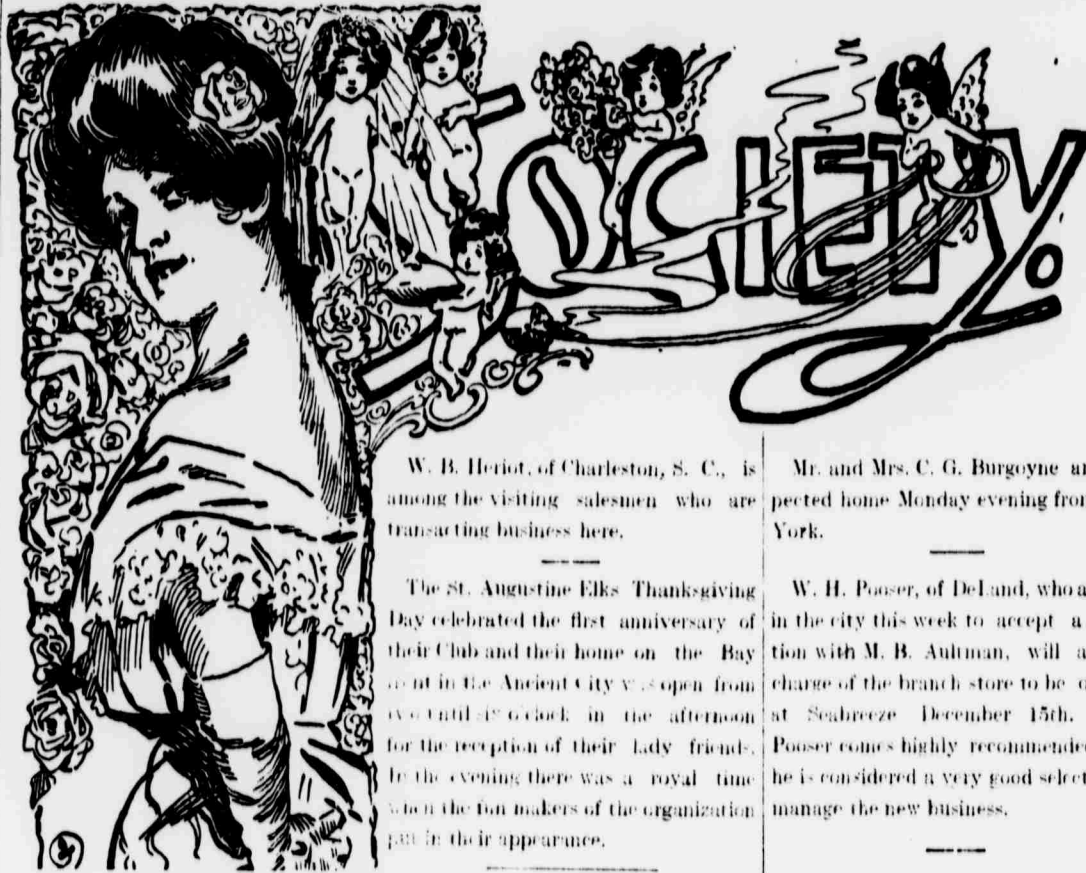

Automobile Race Meet.
 The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona Grand Prix is held on the beach, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America. At low tide the beach is bare for 200 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled palm-rimmed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the grand bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at oblique, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf bathing. Here the infant as well as the gray-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year while the strong and expert swimmer, an venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula
 lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, a opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature
 at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the products of wealth and culture are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 200 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, red snapper, croaker, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this craven fish in an afternoon. Individuals of 2500 pounds in weight have been taken, and the ocean offers the splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties of fish that abound in the river are present in the river. Hunting and fishing good, the selected guides and dogs may be had at reasonable prices.

W. B. Heriot, of Charleston, S. C., is among the visiting salesmen who are transacting business here.

The St. Augustine Elks' Thanksgiving Day celebrated the first anniversary of their Club and their home on the Bay front in the Ancient City was open from two until six o'clock in the afternoon for the reception of their lady friends. In the evening there was a royal time when the fun makers of the organization put in their appearance.

Mr. and Mrs. C. G. Burgoyne are expected home Monday evening from New York.
 W. H. Pinner, of Deland, who arrived in the city this week to accept a position with M. B. Aultman, will assume charge of the branch store to be opened at Seabreeze December 15th. Mr. Pinner comes highly recommended and he is considered a very good selection to manage the new business.

Mr. and Mrs. Wm. Dietrich, of New York City, were here several days this week, enroute to Soldier's Key, where the former will assume charge of the club house for the Florida East Coast Hotel Company. Mr. Dietrich while here secured his commodious launch and carried it south with him. Soldier's Key is twelve miles south of Miami and is a small but growing resort.

A society event of unusual interest occurred in St. Augustine Thanksgiving morning when Noel Mier was united in marriage to Miss Clara Lopez, one of the most charming and accomplished young ladies of that town. The wedding was a church affair and was solemnized at the Catholic Church. The bride has a number of friends in Daytona, having visited here on several occasions.

Mr. and Mrs. Robert Winters, of London, England, who have been coming to Florida for the past several years, were in the city the fore part of the week and were guests at The Bennett. Before coming to Daytona they spent several days at New Smyrna. They decided upon leaving the town to the south of us to take a team and drive through the country but upon reaching the outskirts of our city's passing automobile scared the animals and they became very unmanageable so Mr. Winters decided to abandon the idea of a horse and buggy drive and he left the team at a livery stable. The gentleman owns a valuable orange grove at Orlando and he is there now looking after his property.

Sewerage pipe is being laid along Second avenue in Midway for the extension of the sewerage system.
